

Finish and label

Cells are....

A sub-cellular structure is also called an...

Labelled diagram

**ANIMAL AND PLANT CELLS**

TOP MARKS  
SCIENCE

**Organelles**

**Comparison**

3 organelles we find in a plant cell but not an animal cell:

1. \_\_\_\_\_
2. \_\_\_\_\_
3. \_\_\_\_\_

Match the organelle to its correct function

Organelle
Nucleus
Cytoplasm
Chloroplasts
Mitochondria
Ribosomes
Cell wall
Cell membrane
Permanent vacuole

Function
Site of respiration
Filled with sap
Controls what enters/ exits the cell
Contains DNA
Site of photosynthesis
Strengthens and supports the cell
Protein synthesis
Site of reactions

Tick if present

Organelle	Animal	Plant
Nucleus	✓	
		✓
Cell membrane		
Mitochondria		
Ribosomes		
Chloroplasts		
	✓	✓
Permanent vacuole
